EXPERIENCE

Future First Immigration, Remote — Software Engineer

Sept 2022 - Present

[FFI Official Website](#) - Developed the official company website with technical expertise and precision.

[Tootler AI](#) - I showcased expertise in both frontend and backend development, contributing to the creation of advanced AI-generated SOP functionality and a user-friendly immigration chatbot. My dedication to innovation and seamless user experiences set the projects apart and yielded positive results.

Ved Veyas Foundation, Remote — Contributor

June 2022 - August 2022

[Bhagavad Gita Website](#) - At the Bhagavad Gita website, I played a key role in bug fixing, resolving broken elements, and working with GraphQL. My efforts ensured a smooth and improved user experience.

PG Tech. Pvt. Ltd., Chandigarh — Intern and Trainee

June 2022 - August 2022

[Gaming Site](#) In my internship at PG Tech. Pvt. Ltd. from June to July 2022, I mastered ReactJS, developed a game streaming website, and learned valuable teamwork and agile development skills. Ready for full-stack development.
